

U.S. Auto AfterMarket

AT AN INFLECTION POINT

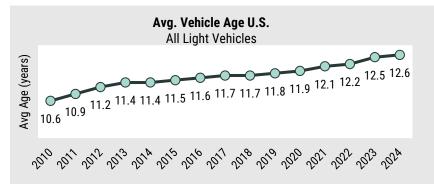

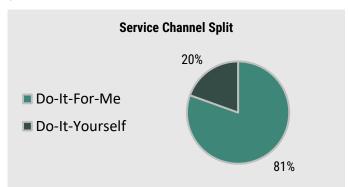

The U.S. automotive aftermarket, a sector traditionally known for its stability and consistent growth, is currently at a pivotal moment. While projected to exceed \$570 billion in sales in 2025, the industry faces unprecedented structural changes driven by a complex global tariff regime, the rapid technological evolution of vehicles, and an intense competition for vehicle-generated data. What are the key disruptive forces, and how can investors and executives navigate this evolving landscape and identify opportunities for value creation?

Market Snapshot: The aftermarket's foundation is strong, driven by a large <u>and aging</u> vehicle fleet. In 2024, total U.S. light-duty aftermarket sales reached approximately \$413.7 billion, a figure that grew by a robust 5.7% over the previous year.1 When factoring in the medium and heavy-duty vehicle segments, the total U.S. aftermarket is projected to reach an even more impressive \$570 billion in 2025.

NAVIGATING CRITICAL DISRUPTION

While an aging fleet remains a tailwind, its evolving composition, driven by Electric Vehicles (EVs) and Advanced Driver-Assistance Systems (ADAS), is fundamentally altering repair needs.

The market is at a critical inflection point, moving beyond traditional mechanical repairs due to the rise of Electric Vehicles (EVs) and Advanced Driver-Assistance Systems (ADAS). The aftermarket is battling three major disruptive forces:

- 1. A complex tariff regime
- 2. Rapid technological transformation of vehicle
- 3. A high-stakes fight for control over vehicle data

Successfully managing the challenges requires new strategies and capital discipline.

Supply Chain Resilience

Multi-layered tariffs, particularly on Chinese imports, can increase landed costs of some components by over 70%, necessitating supply chain diversification and localization.

Technological Service Specialization

The auto aftermarket faces transformation as EVs drive higher collision costs despite lower maintenance, and ADAS recalibration demands significant investment. This will create a market split between specialized and traditional shops.

Data-Driven
Market Access
("Right to Repair")

OEMs' control over connected vehicle data threatens the independent aftermarket. The REPAIR Act is vital to ensure access, controlling future lead generation and market access for independent shops.

STRATEGIC IMPERATIVES TO CREATE VALUE

To succeed in the evolving aftermarket, companies must master new competitive arenas and capitalize on emerging opportunities, rather than defending legacy models.

FOR INVESTORS (PRIVATE EQUITY/VENTURE CAPITAL)

- ✓ Consolidate & Modernize: Consolidate fragmented shops, injecting capital for ADAS/EV equipment and technician training to create high-tech service networks.
- ✓ Enable Technologies & Services: Invest in enablers of the transition: advanced diagnostic tools, calibration equipment, technician training, and EV battery lifecycle management.
- ✓ Update Due Diligence: Prioritize targets based on supply chain agility (diversification from high-tariff regions), technological readiness (ADAS/EV investment), and data access strategy.

FOR C-SUITE EXECUTIVES

- ✓ Capital Allocation: Prioritize investments in advanced diagnostics, ADAS calibration rigs, and EV battery servicing equipment.
- ✓ Talent Management: Implement aggressive recruitment, training (in-house EV/ADAS certification), and retention strategies for technicians.
- ✓ Pricing & Inventory: Shift to dynamic, jobspecific quoting for complex ADAS/EV work and optimize inventory for electronic and EV-specific parts.
- ✓ Strategic Partnerships: Form alliances with diagnostic tool companies, data providers, and educational institutions for technology, data, and workforce access.

ANKURA'S VALUE PROPOSITION

Ankura brings expertise needed to properly assess critical situations and develop solutions that can be rapidly executed. We partner with clients to tailor an approach that meets their unique requirements.

Industry

Experience

Independent Perspective

Highly
experienced,
collaborative
team
of
professionals
which bring
new
perspectives to
the situation

Credibility with Stakeholders

Track record of achieving success and deep experience with leading banks, lenders, bondholders, investors, law firms, and are trusted and respected in the market

Financial & Analytical Expertise

Provide superior financial and data analytics to help the client evaluate performance and trends to develop high-confidence business plans and projection models

Situational Experience

Drive alignment and collaboration with stakeholders, while developing viable restructuring plans and executing transactions in the marketplace

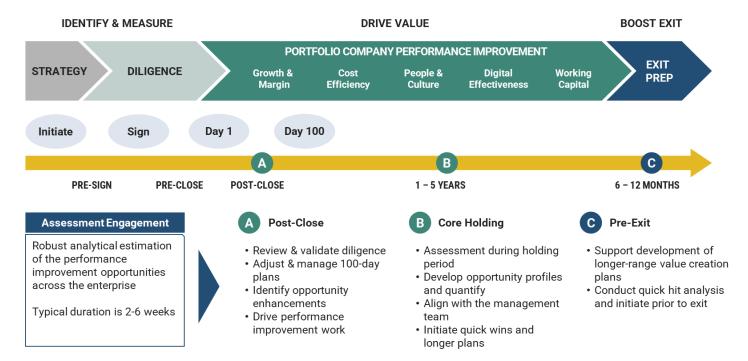

Offer deep
experience
across
numerous
restructuring
and
performance

improvement

engagements

WE INTERACT WITH MULTIPLE STAGES OF THE PRIVATE EQUITY INVESTMENT & EXIT PROCESS

Assessment Opportunities: Our services are initiated throughout the investment cycle, enabling clients to apply leverage when it is most critical for success

DELIVERING END-TO-END SOLUTIONS TO COMPANIES AT CRITICAL INFLECTION POINTS

The Performance Improvement team partners with private equity, lenders, and management to drive rapid EBITDA and cash flow improvement. Using our 3D (Diagnose, Define, Deliver) framework, we assess opportunities, develop sustainable goals and operating plans, and implement solutions.

Our expertise spans diverse industries, including Retail, Direct-to-Consumer, Healthcare, CPG, Services, Education, Manufacturing, and Logistics.

Our experienced operators and consultants address strategic and operational challenges, delivering data-driven, transformative results quickly and efficiently.

VISIT US AT: <u>Ankura Performance Improvement</u> **EMAIL:** performanceimprovement@ankura.com

Ankura Consulting Group, LLC is an independent global expert services and advisory firm that delivers services and end-to-end solutions to help clients at critical inflection points related to conflict, crisis, performance, risk, strategy, and transformation. The Ankura team consists of more than 2,000 professionals serving 3,000+ clients across 115 countries who are leaders in their respective fields and areas of expertise. Collaborative lateral thinking, hard-earned experience, expertise, and multidisciplinary capabilities drive results, and Ankura is unrivaled in its ability to assist clients to Protect, Create and Recover Value. For more information, please visit, www.ankura.com.
